Consolidated Financial Statements
Years Ended October 31, 2016 and 2015
(Expressed in Canadian dollars)

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of Cassius Ventures Ltd.

We have audited the consolidated financial statements of Cassius Ventures Ltd., which comprise the consolidated statements of financial position as at October 31, 2016 and 2015, and the consolidated statements of loss and comprehensive loss, changes in equity, and cash flows for the years then ended, and the related notes comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also involves evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of Cassius Ventures Ltd. as at October 31, 2016 and 2015, and its financial performance and its cash flows for the years then ended, in accordance with International Financial Reporting Standards.

Emphasis of Matter

Without qualifying our opinion, we draw attention to Note 1 of the consolidated financial statements which indicates the existence of a material uncertainty that may cast significant doubt on the ability of Cassius Ventures Ltd. to continue as a going concern.

Notes to the Consolidated Financial Statements Years Ended October 31, 2016 and 2015 (Expressed in Canadian Dollars)

1. Nature of Operations and Continuance of Business

Cassius Ventures Ltd. (the "Company") is an exploration stage company focused on acquiring exploration and/or development stage mineral properties for the purposes of further exploration and development. The Company was incorporated under the Business Corporations Act (British Columbia) on February 23, 2007. The Company maintains its head office at 595 Burrard Street, Suite 3083, Vancouver, British Columbia. The Company's registered and records office is located at 595 Burrard Street, Suite 2900, Vancouver, British Columbia. Its common shares are traded on the NEX Board of the TSX Venture exchange under the symbol "CZ.H".

The Company was previously focused on mineral exploration of its Nicaraguan Gold properties as held by Fortress de Nicaragua S.A. ("Fortress"), a private Nicaraguan company, which is the legal and beneficial owner of sixteen exploration concessions with a total area of approximately 137,000 hectares in Nicaragua. In April, 2015, the Company disposed of Fortress to an arm's length Nicaraguan party.

These consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business.

The Company has yet to generate any revenues from operations and as at October 31, 2016, had an accumulated deficit of \$6,427,416 and a working capital deficit of \$177,836. The above conditions, along with other factors indicate the existence of material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. The Company's ability to continue operations in the normal course of business is dependent on several factors, including the ability to secure additional financing.

Although management is of the opinion that sufficient working capital will be obtained from a source of financing to meet the Company's remaining current liabilities as well as future liabilities and commitments as they become due, there is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. The consolidated financial statements do not include any additional adjustments to the recoverability and classification of certain recorded asset amounts, and changes to the statement of comprehensive income /loss that might be necessary if the Company was unable to continue as a going concern.

2. Basis of Presentation

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

The Company has consistently applied the same accounting policies in all periods presented. These consolidated financial statements were approved by the board of directors on February 22, 2017.

Notes to the Consolidated Financial Statements Years Ended October 31, 2016 and 2015 (Expressed in Canadian Dollars)

3. Summary of Significant Accounting Policies

a) Principles of consolidation

These consolidated financial statements include the accounts of the Company and its previously wholly-owned subsidiary, Fortress de Nicaragua S.A. ("Fortress") until April 8, 2015 (the date of sale of Fortress – refer to note 4). All material intercompany transactions and balances have been eliminated on consolidation.

b) Cash and cash equivalents

The Company considers all highly liquid instruments with a maturity of three months or less at the time of issuance, are readily convertible to known amounts of cash, and which are subject to insignificant risk of changes in value to be cash equivalents.

c) Translation of foreign currencies

- i. Functional and presentation currency: Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). These consolidated financial statements are presented in Canadian dollars which is the functional currency of the Company, along with its previously wholly-owned subsidiary, Fortress.
- ii. Transactions and balances: Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Generally, foreign exchange gains and losses resulting from the settlement of foreign currency transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in currencies other than an entity's functional currency are recorded in the consolidated statements of income (loss) and comprehensive income (loss).

d) Earnings/(Loss) per share

Basic earnings/(loss) per share is calculated by dividing the earnings/(loss) attributable to common shareholders by the weighted average number of common shares outstanding during the period.

Diluted earnings/(loss) per share is calculated by the treasury stock method. Under the treasury stock method, the weighted average number of common shares outstanding for the calculation of diluted loss per share assumes that the proceeds to be received on the exercise of dilutive share options and warrants are used to repurchase common shares at the average market price during the period. Diluted loss per share has not been presented separately as the effect of common shares issuable on the exercise of stock options and share purchase warrants would be anti-dilutive. As at October 31, 2016, the Company had 915,000 (2015: 346,000) potentially dilutive shares from its issued and outstanding stock options, none of which are in the money.

e) Share issuance costs

Share issuance costs incurred on the issuance of the Company's shares are charged directly to share capital.

Notes to the Consolidated Financial Statements Years Ended October 31, 2016 and 2015 (Expressed in Canadian Dollars)

3. Summary of Significant Accounting Policies (continued)

f) Share-based payments

Share-based payments to employees are measured at the fair value of the instruments issued and amortized over the vesting periods. Share-based payments to non-employees are measured at the fair value of the goods or services received or the fair value of the equity instruments issued if it is determined the fair value of the goods or services cannot be reliably measured, and are recorded at the date the goods or services are received. The amount recognized as an expense is adjusted to reflect the number of awards expected to vest. The offset to the recorded cost is to contributed surplus.

Consideration received on the exercise of stock options is recorded as share capital and the related share-based payments reserve is transferred to share capital. Charges for options that are forfeited before vesting are reversed from contributed surplus.

g) Current and deferred income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in the statement of income (loss) except to the extent that it relates to items recognized either in other comprehensive income or directly in equity, in which case it is recognized in other comprehensive income or in equity respectively.

Current income tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects either accounting nor taxable income or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the statement of financial position date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

A deferred income tax asset is recognized to the extent that it is probable that future taxable income will be available against which the temporary difference can be utilized. Deferred income tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

h) Use of estimates and judgments

The preparation of the consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual areas of estimates include assumptions used in the accounting for share-based payments, and recognition of unrecognized deferred income tax assets. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements is included in the notes to the financial statements where applicable.

Notes to the Consolidated Financial Statements Years Ended October 31, 2016 and 2015 (Expressed in Canadian Dollars)

3. Summary of Significant Accounting Policies (continued)

h) Use of estimates and judgments

The Company's assessment of whether the going concern assumption is appropriate requires management to take into account all available information about the future, which is at least, but not limited to, 12 months from the end of the reporting period. The Company is aware that material uncertainties related to events or conditions may cast significant doubt upon the Company's ability to continue as a going concern

i) Financial instruments

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets are derecognized when the rights to receive cash flows from the assets have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership.

Financial assets and liabilities are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

At initial recognition, the Company classifies its financial instruments in the following categories depending on the purpose for which the instruments were acquired:

- Held-for-trading: A financial asset or liability is classified in this category if acquired
 principally for the purpose of selling or repurchasing in the short-term. The Company has
 designated its cash as held-for-trading and are measured at fair value at the end of each
 period with any resulting gains or losses recognized in the consolidated statement of
 income (loss).
- Loans and receivables: Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. The Company's loans and receivables are comprised of amounts receivable, and are included in current assets due to their short-term nature. Loans and receivables are initially recognized at the amount expected to be received less, when material, a discount to reduce the loans and receivables to fair value. Subsequently, loans and receivables are measured at amortized cost using the effective interest method less a provision for impairment.
- Financial liabilities at amortized cost: Financial liabilities at amortized cost include accounts payable and accrued liabilities, promissory notes payable and amounts due to related parties. Accounts payable and accrued liabilities, promissory notes payable and amounts due to related parties are initially recognized at the amount required to be paid less, when material, a discount to reduce the payables to fair value. Financial liabilities are classified as current liabilities as payment is due within twelve months.

4. Sale of Subsidiary

On April 8, 2015, the Company closed a share sale agreement for Fortress with an arm's length Nicaraguan party in respect of the sale of Fortress. Although no consideration was received for the sale of Fortress, the Company relinquished obligations totalling \$1,506,445 which had been previously recorded as a liability on the consolidated statement of financial position, and was recorded as a gain on the sale of Fortress in the consolidated statement of income (loss) during the year ended October 31, 2015.

Notes to the Consolidated Financial Statements Years Ended October 31, 2016 and 2015 (Expressed in Canadian Dollars)

5. Promissory Notes Payable

As at October 31, 2016, the Company had outstanding promissory notes totalling \$111,000 (2015 - \$57,000). The promissory notes bear interest at 7%, are unsecured, and payable on demand. Refer to Note 8(c).

Interest incurred on the promissory notes for the year ended October 31, 2016 totalled \$5,695 (2015 - \$2,751).

6. Share Capital

The Company has an unlimited number of common shares without par value authorized.

7. Stock Options

The Company has established a stock option plan (the "Plan") for its directors, executive officers, employees and consultants under which the Company may grant options to acquire a maximum number of common shares equal to 10% of the total issued and outstanding common shares of the Company exercisable for a period of up to 5 years from the date of grant.

Within any 12 month period, the maximum number of common shares reserved for issuance to any individual cannot exceed 5% of the issued common shares, and the maximum number of common shares reserved for issuance to any insider cannot exceed 10% of the issued common shares. The aggregate number of common shares reserved for issuance to insiders cannot exceed 10% of the issued common shares. Within any 12 month period, the maximum number of options granted to any one consultant cannot exceed 2% of the issued common shares and the maximum number of options granted to all employees and consultants conducting investor relations activities cannot exceed 2% of the issued common shares.

The exercise price of an option granted under this plan shall not be less than the discounted market price provided that:

- (i) if options are granted within 90 days of a distribution by a prospectus, the minimum exercise price of those options will be the greater of the discounted market price and the per share price paid by the public investors for shares acquired under the distribution;
- (ii) the 90 day period begins on the date a final receipt is issued for the prospectus:
- (iii) for unit offerings, the minimum option exercise price will be the 'base' (or imputed) price of the shares included in the unit; and
- (iv) for all other financings, the minimum exercise price will be the average price paid by the public investors.

Subject to the discretion of the Board, the options granted to an optionee under this Plan shall fully vest on the date of grant of such options. In accordance with the policies of the TSXV, and subject to their approval to the contrary, options issued to consultants providing investor relations services must vest (and not otherwise be exercisable) in stages over a minimum of 12 months with no more than 25% of the options vesting in any 3 month period.

Notes to the Consolidated Financial Statements Years Ended October 31, 2016 and 2015 (Expressed in Canadian Dollars)

7. Stock Options (continued)

As at October 31, 2016 and 2015, the Company had the following stock options outstanding and exercisable:

	Number of	We	eighted average
	Options		exercise price
Options outstanding - October 31, 2014	146,000	\$	2.05
Granted	250,000		0.05
Forfeited	(50,000)		2.21
Options outstanding - October 31, 2015	346,000	\$	0.05
Expired	(71,000)		0.19
Granted	640,000		0.05
Options outstanding - October 31, 2016	915,000	\$	0.05
Options exerciseable - October 31, 2016	460,000	\$	0.05

On April 7, 2015, the Company re-priced a total of 96,000 stock options, with original exercise prices ranging from \$1.65 to \$2.10 and expiry dates ranging from July 18, 2016 to April 30, 2017, to \$0.05 per option. The incremental fair value granted as a result of the modification was \$243 and was expensed during the year ended October 31, 2015. The incremental fair value is the difference between the value of the options at the modification date calculated using the original exercise prices and the modified exercise price.

On May 29, 2015, the Company granted a total of 250,000 stock options with a fair value of \$3,049 to the Chief Financial Officer of the Company with an exercise price of \$0.05, expiring on May 29, 2020.

On March 17, 2016, the Company granted a total of 100,000 stock options with a fair value of \$1,921 to an employee of the Company with an exercise price of \$0.05, expiring on March 17, 2021.

On July 4, 2016, the Company granted a total of 540,000 stock options with a fair value of \$15,728 to directors and an employee of the Company with an exercise price of \$0.05, expiring on July 4, 2021.

As at October 31, 2016, all outstanding stock options had an exercise price of \$0.05 with a weighted average remaining life of 4.2 years.

The weighted average fair value of stock options granted during the year ended October 31, 2016 was \$0.03 (2015 - \$0.02) per stock option.

Notes to the Consolidated Financial Statements Years Ended October 31, 2016 and 2015 (Expressed in Canadian Dollars)

8. Related Party Transactions

a) Key Management Compensation

Key management includes the Company's directors, Chief Executive Officer, and Chief Financial Officer. Compensation awarded to key management for the year ended October 31, 2016 comprised share based payments of \$10,093 (2015 - \$2,154) relating to the continued vesting of options granted to the directors and officers of the Company, in May 2015 and July 2016, respectively.

b) Payments for services by related parties

For the year ended October 31, 2016, the Company incurred \$nil (2015: \$1,528) in shared lease and overhead, and service costs to Atlantic Gold Corporation ("Atlantic"), a company with a common officer and director. As at October 31, 2016 and 2015, the Company owed \$28,215 to Atlantic.

As at October 31, 2016 and 2015, the Company owed \$25,812 to Oceanic Iron Ore Corp., a company with an officer in common.

As at October 31, 2016 and 2015, the Company owed \$4,000 to the Chief Financial Officer of the Company.

c) Promissory notes with related parties

As at October 31, 2016, the Company had \$40,500 (2015 - \$18,500) of outstanding promissory notes issued to a director and CEO of the Company, and \$10,000 of outstanding promissory notes issued to a director and CFO of the Company (2015 – nil). The promissory notes are unsecured, bear interest at 7% per annum and are payable on demand. Interest incurred on the promissory notes due to related parties for the year ended October 31, 2016 totalled \$3,224 (\$1,904).

The amounts due to and from related parties other than those described in this Note 8(c) above are non-interest bearing, unsecured, and due on demand.

9. Income Taxes

Income tax expense differs from the amount that would result from applying the Canadian federal and provincial income tax rates to earnings before income taxes. These differences result from the following items:

	0	ctober 31, 2016	October 31, 2015
Income (loss) before income taxes	\$	(40,821)	\$ 966,368
Combined federal and provincial income tax rates		26%	26%
Expected income tax recovery		(10,613)	251,256
Increase (decrease) due to:			
Stock based compensation and other non-deductible expenses		3,125	11,865
Application of previously unrecognized tax assets against gain on disposition		-	(465,447)
Difference in foreign tax rates		-	(28,986)
Tax benefit of losses not recognized		7,488	231,312
Income tax expense	\$	-	\$ -

Notes to the Consolidated Financial Statements Years Ended October 31, 2016 and 2015 (Expressed in Canadian Dollars)

9. Income Taxes (continued)

The composition of the unrecognized deferred income tax asset is provided in the table below:

	0	ctober 31, 2016	October 31, 2015	
Non-capital losses	\$	350,981	\$	342,615
Capital losses		534,414		534,414
Mineral properties, plant and equipment		105,261		105,261
Share issuance costs		530		1,408
Unrecognized deferred income tax assets		(991,186)		(983,698)
	\$	-	\$	-

The Company has non-capital loss carry-forwards of \$1,349,328 (2015 - \$1,317,149) that may be available for income tax purposes. No deferred tax asset has been recorded in respect of these losses as it is not probable that the Company will generate sufficient taxable income. The loss carry-forwards are all in respect of Canadian operations and expire as follows:

Expiry Date	Canada
October 31, 2027	26,008
October 31, 2028	25,989
October 31, 2029	68,734
October 31, 2030	127,873
October 31, 2031	359,908
October 31, 2032	310,312
October 31, 2033	218,794
October 31, 2034	96,546
October 31, 2035	82,985
October 31, 2036	32,179
\$	1,349,328

10. Financial Risk Management

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's financial instruments consist of cash, amounts receivable, accounts payable and accrued liabilities, promissory notes payable, and amounts due to related parties.

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board approves and monitors the risk management processes.

Credit Risk

Credit risk arises from the potential for non-performance by counterparties of contractual financial obligations. The Company's exposure to credit risk is on its cash and amounts receivable. The Company's cash is being held with large financial institutions. Amounts receivables are comprised of GST receivable from the Government of Canada. The Company's credit risk is mitigated by maintaining its financial liquid assets with highly reputable counterparties. The maximum exposure to credit risk is equal to the fair value or carrying value of the financial assets noted above.

Notes to the Consolidated Financial Statements Years Ended October 31, 2016 and 2015 (Expressed in Canadian Dollars)

10. Financial Risk Management (continued)

Foreign Exchange Rate Risk

Up until the sale of Fortress, the Company incurred exploration expenditures in US dollars and Nicaraguan Cordobas. The financial risk was the risk to the Company's operations that arose from fluctuations in foreign exchange rates and the degree of volatility of these rates. As the Company disposed of its foreign operations during the prior year, the Company is no longer exposed to any significant foreign exchange rate risk.

Liquidity Risk

The Company's cash are invested in business accounts which are available on demand. The Company manages liquidity risk by preparing and maintaining cash forecasts, which illustrate cash spent to date and cash needs over the short term. As at October 31, 2016, the Company had total current assets of \$15,997 (2015: \$1,765). Contractual undiscounted cash flow requirements for financial liabilities as at October 31, 2016 and 2015 are presented below.

October 31, 2016

	Less	than 1 year	1 - 3 years	4 - 5 years	Total
Accounts payable and accrued liabilities	\$	21,582 \$	- \$	- \$	21,582
Due to related parties		61,251	-	-	61,251
Promissory notes payable		111,000	-	-	111,000

October 31, 2015

	Less	than 1 year	1 - 3 years	4 - 5 years	Total
Accounts payable and accrued liabilities	\$	33,868	\$ - \$	- \$	33,868
Due to related parties		59,931	-	-	59,931
Promissory notes payable		57,000	-	-	57,000

The Company's ability to continue operations in the normal course of business is dependent on several factors, including the ability to secure additional financing, which is uncertain. Further information relating to liquidity risk is disclosed in Note 1.

Interest Rate Risk

As the Company's promissory notes bear a fixed interest rate, the Company is not significantly impacted by interest rate risk.

Price Risk

The Company is not currently exposed to price risk with respect to commodity prices. The Company's ability to raise capital to fund exploration and development activities with a potential future project may be subject to risks associated with fluctuations in the market price of commodities.

Notes to the Consolidated Financial Statements Years Ended October 31, 2016 and 2015 (Expressed in Canadian Dollars)

10. Financial Risk Management (continued)

Fair Value

A three-level hierarchy for fair value measurements exists based upon the significance of inputs used in making fair value measurements:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 inputs other than quoted prices that are observable for the asset or liability, either directly (i.e.: as prices) or indirectly (i.e.: derived from prices).
- Level 3 inputs for the asset or liability that are not based on observable market data.

At October 31, 2016, cash was categorized as level 1. The fair values of other financial instruments, which include amounts receivable, accounts payable, and accrued liabilities, promissory notes payable and amounts due to and from related parties, approximate their carrying values due to the relatively short-term maturity of these instruments.

11. Management of Capital

The Company considers its capital to be its share capital and contributed surplus. The Company's objectives when managing capital are to pursue the development of its mineral properties and to maintain a flexible capital structure which optimizes the cost of capital at an acceptable risk. In the management of capital, the Company includes the components of equity attributable to shareholders.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may attempt to issue new shares, issue debt and acquire or dispose of assets.

In order to facilitate the management of its capital requirements, the Company prepares annual expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions and also taking into consideration externally imposed capital requirements. The annual and updated budgets are approved by the Board of Directors, as required.

The Company's investment policy is to limit investments to guaranteed investment certificates, banker's acceptance notes, investment savings accounts or money market funds with high quality financial institutions in Canada and treasury bills, selected with regards to the expected timing of expenditures from continuing operations. The Company has no externally imposed capital requirements. The Company's capital management policies have not significantly changed from the year ended October 31, 2015.
