Notes to the condensed interim financial statements
For the Three and Nine Months Ended July 31, 2019 and 2018
(Expressed in Canadian Dollars)

1. Nature of Operations and Continuance of Business

Cassius Ventures Ltd. (the “Company”) is an exploration stage company focused on acquiring exploration and/or development stage mineral properties for the purposes of further exploration and development. The Company was incorporated under the Business Corporations Act (British Columbia) on February 23, 2007. The Company maintains its head office at 595 Burrard Street, Suite 3083, Vancouver, British Columbia. The Company’s registered and records office is located at 595 Burrard Street, Suite 2900, Vancouver, British Columbia. Its common shares are traded on the NEX Board of the TSX Venture exchange under the symbol “CZ.H”.

These condensed interim financial statements have been prepared on a going concern basis, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business.

The Company has yet to generate any revenues from operations and as at July 31, 2019, had an accumulated deficit of \$6,511,871 and a working capital deficit of \$255,765. The above conditions, along with other factors indicate the existence of material uncertainties that may cast significant doubt upon the Company’s ability to continue as a going concern. The Company’s ability to continue operations in the normal course of business is dependent on several factors, including the ability to secure additional financing.

Although management is of the opinion that sufficient working capital will be obtained from a source of financing to meet the Company’s remaining current liabilities as well as future liabilities and commitments as they become due, there is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. The financial statements do not include any additional adjustments to the recoverability and classification of certain recorded asset amounts, and changes to the statement of comprehensive operations that might be necessary if the Company was unable to continue as a going concern.

2. Basis of Presentation

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to the preparation of interim financial statements, including International Auditing Standard 34, Interim Financial Reporting (“IAS 34”) as issued by the International Accounting Standards Board. These condensed interim financial statements do not include all disclosures required for annual audited financial statements. Accordingly, they should be read in conjunction with the notes to the Company’s audited annual financial statements for the year ended October 31, 2018. The accounting policies followed in these condensed interim financial statements are the same as those applied in note 3 of the Company’s audited annual financial statements for the year ended October 31, 2018.

The Board of Directors approved these condensed interim financial statements on September 25, 2019.

As at July 31, 2019 the Company had outstanding promissory notes totalling \$157,500 (October 31, 2018 - \$139,500). The promissory notes bear interest at 7%, are unsecured, and payable on demand.

Interest incurred on the promissory notes for the three month and nine months ended July 31, 2019 totalled \$2,721 and \$7,667, respectively (2018 - \$2,381 and \$6,578, respectively) and have been recorded in accounts payable and accrued liabilities.

Fair value is based on available public market information or, when such information is not available, estimated using present value techniques and assumptions concerning the amount and timing of future cash flows and discount rates which factor in the appropriate credit risk. The carrying values of cash and cash equivalents, receivables, accounts payable, promissory notes, and due to related parties approximate their fair values due to their short-term nature.
